

Capability Statement

The AMPAC Group was founded in 1974 and is 100% Australian owned. AMPAC is now the leading Australasian specialist in the design, manufacture and distribution of 'Fire Detection and Emergency Warning Systems'.

AMPAC design, manufacture and distribute fire detection and emergency warning products to installers and distributors in the industry. We are committed to being a worldwide competitor.

We are committed to the continuous improvement of our business with a major concentration on the development of our people, service to our customers and the quality of our products.

The above statements encompass the philosophy and strategy by which Ampac exists and will continue to grow.

OUR VALUES

- ✓ *We have trust and respect for individuals.*
- ✓ *We focus on a high level of achievement and contribution.*
- ✓ *We conduct our business with uncompromising integrity.*
- ✓ *We achieve our common objectives through teamwork.*
- ✓ *We encourage flexibility and innovation.*

AMPAC's CERTIFICATIONS

To order to sell fire detection and emergency warning products in a selected country, the products must comply to the appropriate product and install standards of the selected country.

For this reason, Ampac's fire detection and emergency warning products are certified to meet the product and install standards of the target country.

The certification process involves submitting products for functional and environmental testing to third party testing organisations, and regular audits.

Ampac's Certifications for Fire Detection & Emergency Warning Products include:

- Australia AS4428, AS7240 and AS2220.1
- New Zealand NZ4512
- Europe / SE Asia EN54
- Malaysia MS1745
- Singapore CP10
- Chinese GB4717, GB16806, GB17429

Major installations include:

- Hospitals
- Hotels
- High Rise Office Towers
- Universities
- Banks
- Shopping Centres
- Airports

AMPAC are committed to a Quality Management System in accordance with ISO9001:2015 in the design, manufacture and supply of emergency warning and fire detection products. The management of AMPAC is firmly committed to supporting its people, to firstly ensure they have the necessary education, training, information and tools to help implement the processes as described in our Company Quality Manual and Policies.
