

Fire detection and evacuation solutions that save lives.

Void Fire Detector Holder

Features

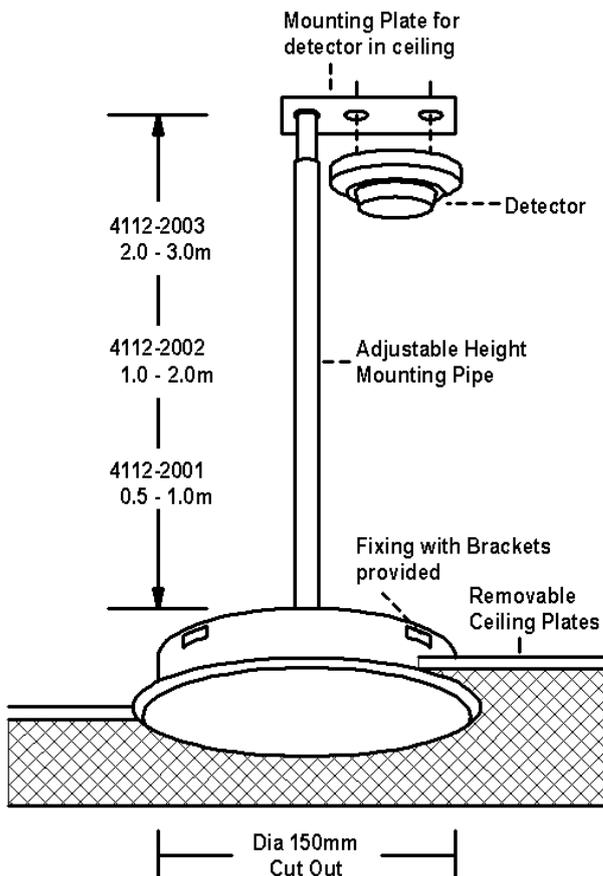

- Adjustable mounting tubes
- Aesthetically pleasing cover plate
- Fixing brackets included
- Removable ceiling plate

Description

The Void Fire Detector Holder allows the installation of a fire detector within a concealed ceiling space at variable heights. The holder enables easy inspection and maintenance of the fire detector located within the ceiling void space from below ceiling level.

Three models are available to suit various ceiling void heights from 0.5 metres to 3 metres. Compatible with Series 65, Orbis, XP95 and Discovery range of detectors.
