

Fire detection and evacuation solutions that save lives.

# Intelligent Manual Call Point

## Features

- IP67 rated
- A unique, ergonomically designed key for resetting and front cover removal
- Backward compatibility and retro-fit
- Resettable element
- Integral short circuit isolator
- Captive screws for easy installation
- 180° viewable LED

## Description

The Discovery Waterproof Manual Call Point has been designed to operate on a loop of intelligent addressable fire detection devices and when activated interrupts the polling cycle for a very fast response.

The Waterproof Manual Call Point is available in two versions, with and without isolator and has an IP67 rating. It is intended for use where water and dirt are a problem. The isolated version of the Waterproof Manual Call Point incorporates a short circuit isolator which will ensure its operation in the event of a short circuit fault on the detection loop.

The Discovery Waterproof Manual Call Point has a highly visible alarm indicator which can be seen from up to 10 metres away. A combined LED indicator and front reset mechanism allows for a quick and simple reset.

To provide additional protection against accidental operation, a transparent hinged cover is available which can be fitted.

Waterproof Manual Call Point

## Specifications

Supply Voltage	18-28V DC
Quiescent Current	100µA at 24V DC
Alarm Current	4mA at 24V DC
Material	Fire retardant polycarbonate
Operating Temperature	-30°C to +70°C
Humidity	0 – 95% RH non-condensing
EMC Directive	2004/108/EC
CPD Directive	89/106/EEC
IP Rating	67
Weight	180g
