

Case Study

Calvary Adelaide Hospital

Ampac protects the largest private hospital in South Australia

Calvary Adelaide Hospital is a private hospital located in the Adelaide CBD. The new hospital replaces the services of both the Calvary Wakefield Hospital and Calvary Rehabilitation Hospital and is the largest private hospital in South Australia.

Location: Adelaide, South Australia

Sector: Healthcare

Products: FireFinder^{PLUS} EV3000

Completed: 2020

The Challenge

- Healthcare Facility

The Solution

Ampac's FireFinder^{PLUS} Addressable Fire Alarm Control Panel and EV3000 Occupant Warning and Intercom system were selected for the project.

The system included a 4 Node, 33 Loop FireFinder^{PLUS} system and an EV3000 system with 55 Emergency Warning System (EWS) Zones and 64 Warden Handsets.

The site also required 26 SmartTerminal Mimics.
