

Case Study

SkyCity Casino Hotel

Ampac protects SkyCity Adelaide, South Australia's premier entertainment destination.

The existing SkyCity Casino was recently expanded to include a further 123 luxury hotel rooms and spa, new VIP gaming facilities, three new bars, and three additional signature restaurants.

Location: Adelaide, South Australia

Sector: Hotels

Products: FireFinder^{PLUS} EV3000

Completed: 2020

The Solution

Ampac's FireFinder^{PLUS} and EV3000 Occupant Warning and Intercom system were selected for the project and installed by the team at Trojan Fire.

Two additional nodes were added to the existing Casino FireFinder^{PLUS} and EV3000 system;

- 16 x Emergency Warning System (EWS) Zones
- 20 x Warden Intercom Phones (WIPs)
- 16 x Fire Loops
- 36 x Fans
- 4 x Wagner Aspirating Smoke Detectors

A new system was provided for the hotel which included;

- 16 x Emergency Warning System (EWS) Zones
- 20 x Warden Intercom Phones (WIPs)
- 17 x Fire Loops
- 6 x Wagner Aspirating Smoke Detectors
