

Case Study

The Continental Sorrento

Ampac protects the historic Continental Sorrento.

The 145 year old, heritage building recently received a \$100 million refurbishment, and has reopened as The Continental Sorrento Hotel. The revitalised precinct spans 20,000sqm and features six levels and five separate buildings.

Location: Mornington Peninsula, Victoria

Sector: Hotel

Products: FireFinder^{PLUS} EV3000

Completed: 2022

The Challenge

- Heritage Project

The Solution

Working with the team at SRD Fire Protection, Ampac provided a fire detection and evacuation system for the facility.

The system included Ampac's EV3000 Emergency Warning and Intercom System combined with the FireFinder^{PLUS} Addressable Fire Alarm Control Panel and Detectors.

- FireFinder^{PLUS} 12 Loops
- EV3000 14 Zones, 19 Warden Intercom Points
- 600 + Detectors and Devices
