

## Case Study

# TCG Centre

## Ampac protects TCG Centre – Darwin’s Premier Hub for Government Agencies and Businesses

TCG Centre is one of Darwin’s iconic buildings, offering exceptional office space in a thriving commercial, retail, and entertainment precinct.

The seven-level complex is perfectly designed for both government agencies and businesses seeking modern, efficient, and dynamic workspaces in the heart of the city.

<b>Location:</b>	Darwin, Northern Territory
<b>Sector:</b>	Commercial
<b>Products:</b>	EvacUElite
<b>Completed:</b>	2024

### The Challenge

TCG Centre needed to quickly replace the existing aged EWIS System with the new compliant [EvacUElite](#).

### EvacUElite Approvals:

- AS 4428.16:2020 Grade 1
- AS 4428.4:2016
- AS 7240.4:2018

### The Solution

Ampac provided the [EvacUElite](#) system to replace the old EWIS system.

The solution included:

- 10 x 50W Amplifiers
- 15 Radial WIP Phones

Ampac's [EvacUElite](#) Emergency Warning and Intercom System features a modular, card-frame architecture housed within a self-contained cabinet providing a flexible solution for projects small and large.

The EvacUElite presents fully compliant, operator-friendly control and indication functionality via a colour touch screen user interface. A practical and operator-friendly menu layout provides time and cost-saving features during installation, operation, and maintenance.
